

# Two-wheel tractor Castoro DF

**DIFFERENTIAL LOCK**  
In case of wheel slipping the simple action of the lever blocks the differential restoring maximum adherence to machine.

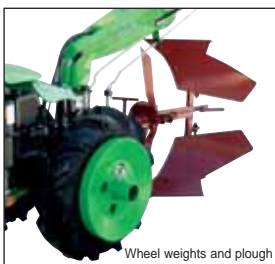

**GEAR AND REVERSER CONTROL LEVERS**  
The easy access to the levers allows immediate control of the two-wheel tractor in any situation. 3 front and 3 rear gears are actuated by the reverser for fast use of numerous attachments.

**BUILT-IN FEATURES**  
The weight of the unit in cast iron, of the trailer attachment and of the wheel spacers gives the machine sturdiness and elevated performances. The built-in protective caps protect the rotating elements of the wheels from grass and dust. The reversible handlebars are adjustable in height and can be turned through 180° with fast and simple mechanisms.

Snow thrower

Wheel weights and plough

## MODEL CASTORO DF

Engine	Gearbox	PTO	Clutch	Reversible handlebars	Wheel axle	Safety device	Rotary tiller	Weight
Petrol and diesel 4-9 to 6.6 Kw (6.7-9HP)	6-speeds 3 FW + 3 RV rapid reverser	Independent 1 speed 943 rpm	Dry, 4 discs	Anti-vibration, adjustable in height and side to side	Differential with blockage tractor tyres 5.00-10	Safety switch + PTO disen- gagement in reverse	60 cm adjustable up to 40 cm	125 Kg
