

FLAIL MOWER EURO from 40 to 80 KW (55-110 KM)

The EURO flail mower is a heavier version of the Euro L, it is a professional machine for maintaining bigger green areas in municipalities and in agriculture. It is ideal for shredding high grass and bushes on abandoned and uncultivated areas, with possibility to cut material up to 6 cm in diameter. Thanks to its robust structure and excellent technical characteristics it perfectly shreds maize straw, oil rape and other crop residues. We recommend y-blades for lighter job, while hammers are appropriate for heavy duty job. Flail mower EURO has hydraulic offset and combi mounting for rear and front position in its standard equipment. The rotor is a double spiral rotor which gives a 45% distribution of working blades and requires less power whilst ensuring a fast work rate and great finish

EURO	 KW-KM	 cm	 cm	 rpm	 pc	 pc	 kg	 cm
230	40-80/55-110	228	251	540/*1000	78	26	793	*6
