

Two-wheel tractor Castoro Super

GEARBOX

The gearbox in cast iron, sturdy and compact, offers performances equal to machines of greater power and makes the two-wheel tractor well balanced and versatile for front and rear mounted implements.

LARGE SIZED ROTARY TILLER 80 CM

Thanks to the particular transmission and longer blades, a working depth of 20 cm is achievable with only 10HP engines.

START UP PANEL

The electric start with battery can be provided on all the available engines, both diesel and petrol.

SAFETY SWITCH

Combined with the softness of the clutch lever, the CE approved safety device protects the operator from any careless mistake.

Trailer

Stone burier
